

VACCINE NAMES AND ABBREVIATIONS

Vaccine	Abbreviation Name	What it Means
Polio	Oral Polio OPV Orimune Trivalent Polio TOPV	Oral poliovirus vaccine (no longer used in U.S.)
	Sabin	Oral poliovirus
	Inactivated Polio eIPV IPOL IPV	Injectable poliovirus vaccine
DTP (Diphtheria, Tetanus, Pertussis)	DTP or DPT Tri-Immunol	Combination vaccine: diphtheria, tetanus, pertussis (no longer available in U.S.)
	Triple	Combination vaccine: diphtheria, tetanus, pertussis
	DT	Combination vaccine: diphtheria and tetanus (infant vaccine without pertussis used through age 6)
	DTaP Acel-Imune Certiva Daptacel Infanrix Tripedia	Combination vaccine: diphtheria, tetanus and acellular pertussis
DTaP/Tdap (Diphtheria, Tetanus, Acellular Pertussis)	Tdap Adacel Boostrix	Combination vaccine: tetanus, diphtheria, acellular pertussis (improved booster vaccine containing pertussis for adolescents and adults)
	DTP-Hib ActHIB-DTP DTP-ActHib DTP-HbOC DTP-OmniHIB H-DTP OmniHIB-DTP Tetramune	Combination vaccine: diphtheria, tetanus, pertussis and Haemophilus influenza type b

	Cuadruple Also, "Quadruple"	Combination vaccine: diphtheria, tetanus, acellular pertussis and haemophilus influenza type b
DTaP-Hib (Diphtheria, Tetanus, Acellular Pertussis and haemophilus Influenzae type b)	DTaP-Hib Act-HIB-Tripedia TriHIBit Tripedia-ActHIB	Combination vaccine: diphtheria, tetanus, acellular pertussis and Haemophilus influenza type (used only for 4 th dose in series)
Other DTaP/DTP COMBINATIONS	Pediarix Kinrix	Combination vaccine: diphtheria, tetanus, acellular pertusses, Haemophilus influenza type b and inactivated poliovirus (DTaP/IPV/Hep B) Combination vaccine: diphtheria, tetanus, acellular pertussis and inactivated poliovirus
Hib Haemophilus Influenzae type b	Pentavalente Pentacel and Pentavac Pentacoq Quadracel ActHIB HbOC HCV HIB HibTITER OmniHIB OMP-PRP PedvaxHIB ProHIBit PRP-D PRP-OMP PRP-T Comvax (Hepatitis B/Hib combo)	Combination vaccine: DTP/Hepatitis B/Hib (Mexico) Combination vaccine: DTaP/Hib/IPV (outside USA) Combination vaccine: DTP/Hib/IPV (outside USA) Combination vaccine: DTaP/IPV (outside USA) Haemophilus influenzae type b conjugate vaccine(Hib) (refer to Hep B-Hib)
MMR (Measles, Mumps, Rubella)	MMR M-M-R II	Combination vaccine: measles, mumps and rubella
	Anti-sarampion	Measles-only vaccine
	Meas.	Measles-only vaccine
	Triple Viral (SRP)	Measles, rubella, mumps vaccine

MMR (cont.)	MR	Measles and rubella vaccine (without mumps)
	SR	Measles and rubella vaccine
MMRV Measles, Mumps, Rubella and Varicella	ProQuad	Combination vaccine: measles, mumps, rubella and varicella
Hepatitis B	Hep B Engerix Engerix-B HBV Heptavax Recombivax HB Recombivax Comvax (Hep B-Hib combination)	(refer to Hep B-Hib)
Hepatitis B-Hib	HBIG	Hepatitis B Immune Globulin (given to newborns or children with possible exposure to Hep B infection) DOES NOT count as dose of Hep B vaccine
	Hep B-Hib Comvax	Combination vaccine: Hepatitis B/Haemophilus influenza type b vaccine
Varicella (Chickenpox)	Varicella Var Varivax VZV ZOS	Varicella (chickenpox) vaccine Varicella zoster vaccine Zoster (shingles) vaccine
Hepatitis A	Hep A Havrix VAQTA	Hepatitis A vaccine (not required for school or childcare entry)
Hepatitis A-Hepatitis B	Twinrix	Combination vaccine: Hepatitis A and Hepatitis B adults (18 yrs and older)(in USA)
	Twinrix Jr.	Combination vaccine: Hepatitis A and Hepatitis B pediatric vaccine (outside USA)
HPV Human Papillomavirus	Gardasil	

Influenza Flu Vaccine	LAI TIV	Live, Weakened Influenza Vaccine (nasal spray) Trivalent (Inactivated) Influenza Vaccine
MCV4 Meningococcal Conjugate Vaccine (quadrivalent)	Meningo Menactra	Meningococcal Meningitis Vaccine
	Menomune	Meningococcal Meningitis Vaccine
PCV7 Pneumococcal Conjugate Vaccine (7-valent)	Prevnar	Pneumococcal Polysaccharide Vaccine (7-valent) for children
